## 

## Self-assessment for Personal Support Workers

- Novice (N) may be experienced in psychosocial care but new to palliative care. Needs regular support.
- Advanced beginner (B) can practice independently using some psychosocial skills specific to palliative care but still needs support.
- **Competent (C)** mostly independent, occasionally seeks out support.
- Proficient (P) autonomous practice, seeks out leadership opportunities.
- **Expert (E)** highly proficient, is regularly sought out by others.

|       | Palliative care competencies and descriptions  | Knowled      | ge/skill | level  |      |   |
|-------|--|--------------|----------|--------|------|---|
|       | 1 Principles of a palliative approach to ca  | re           |          |        |      |   |
| 1.1   | Understanding the core philosophy of Palliative Care and the   | e palliative | e appro  | ach to | care |   |
| 1.1.1 | Understand the principles and practices of palliative care and a palliative approach.  | Ν            | в        | С      | Ρ    | E |
| 1.1.2 | Understand community-specific protocols, in particular<br>when caring for members of underserviced populations<br>who are living with a life-limiting illness so they can live fully<br>throughout their care. | N            | в        | с      | Ρ    | E |
| 1.1.3 | Understand community-specific protocols of caring for First<br>Nations, Inuit, and Métis who are living with a life-limiting<br>illness so they can live fully throughout their care.                          | N            | в        | С      | Ρ    | E |
| 1.2   | Identifying people who would benefit from a palliative appro   | bach         |          |        |      |   |
| 1.2.1 | Collaborate with the care team and use evidence-based tools to identify people who could benefit from a palliative approach.   | N            | в        | с      | Р    | E |
| 1.3   | Understanding the interdisciplinary team   |              |          |        |      |   |
| 1.3.1 | Understand the role of the interdisciplinary team in providing palliative care, as well as the roles of each team member.  | N            | в        | с      | Р    | Е |
| 1.4   | Including designated family or caregiver(s) in the unit of care  | e            |          |        |      |   |
| 1.4.1 | Acknowledge who the person considers to be family, and include the designated family or caregiver(s) in the person's care, if the person wishes  | N            | в        | с      | Ρ    | E |
| 1.4.2 | Respect the importance of the role of designated family or caregivers and community for members of underserviced populations throughout their palliative care.   | N            | в        | С      | Р    | E |
